

Modern Trends in Human Leukemia

Table of contents

1 Immuno Therapy.....	2
-----------------------	---

1 Immuno Therapy

Treatment Strategies:	
Immuno Therapy :	
Herberman RB (1974)	
Cellular Immune Reactions in Human Acute Leukemia	
Haematol. Bluttransf. Vol 14	: 107-118
Bekesi JG Holland JF (1979)	
Impact of Specific Immunotherapy in Acute Myelocytic Leukemia	
Haematol. Bluttransf. Vol 23	: 79-87
Bach FH et al. (1979)	
Elicitation of Anti-Leukemia Cytotoxic Responses	
Haematol. Bluttransf. Vol 23	: 369-376
Ritz J et al (1983)	
In Vitro Treatment with Monoclonal Antibody Prior to Autologous Bone Marrow Transplantation in Acute Lymphoblastic Leukemia	
Haematol. Bluttransf. Vol 28	: 117-123
Kersey JH (1985)	
Monoclonal Antibodies and Immunotoxins in Bone Marrow Transplantation: Purgin Marrow of ALL or GVHD Cells with Preservation of Stem Cells	
Haematol. Bluttransf. Vol 29	: 34-38
Waldmann TA et al. (1987)	
IL-2 Receptors in Adult T-Cell Leukemia: A Target for Immunotherapy	
Haematol. Bluttransf. Vol 31	: 110-115
Schulze E et al. (1989)	
The Use of Long-term Bone Marrow Cultures (LTBMC) to Detect	

Hematotoxic Side Effects of Purging Methods	
Haematol. Bluttransf. Vol 32	: 46-50
Almazov A et al. (1992)	
Multiple Myeloma:Immunodeficient, Osteolytic, Renal, and Amyeloid Syndromes	
Haematol. Bluttransf. Vol 35	: 41-49
Eaves CJ et al. (1993)	
In vitro culture of bone marrow cells for autografting in CMI	
Leukemia Vol 7, Suppl 2	S126-S129
Favrot M.	
Bone Marrow Purging Procedure with Monoclonal Antibodies and Complement in B Cell Lymphomas	
In: Zander AR, Barlogie B (eds.) Autologous Bone Marrow Transplantation for Hodgkin`s Disease,Non-Hodgkin`s Lymphoma and Multiple Myeloma, Springer-Verlag, Berlin Heidelberg New York London, pp 87-92	
Treatment Strategies:	
Gene Thrapy :	
Heslop HE et al. (1996)	
Gene Transfer into Hematopoietic Progenitors: Implications for Bone Marrow Transplantation	
In: Zander AR et al. (eds) Gene Technology, Stem Cell and Leukemia Research, Nato Asi Series H: Cell Biology, Vol 94, Springer-Verlag, Berlin Heidelberg New York London, pp 193-202	
Baum C et al. (1996)	
Contribution of the Retroviral Leader to Gene Transfer and Expression in Packaging Cells and Myeloid Stem and Progenitor Cells	
In: Zander AR et al. (eds) Gene Technology,Stem Cell and Leukemia Research, Nato Asi Series H. Cell Biology, Vol 94, Springer-Verlag, Berlin Heidelberg New York London, pp 219-228	

Treatment Strategies:	
Transplantation :	
Gale RP (1979)	
Bone Marrow Transplantation in Acute Leukemia: Current Status and Future Direction	
Haematol. Bluttransf. Vol 23	: 71-78
Storp R (1981)	
Bone Marrow Transplantation for the Treatment of Leukemia	
Haematol. Bluttransf. Vol 26	:136-138
Morgenstern GR Powles RL (1981)	
Allogenic Bone Marrow Transplantation for Acute Myeloid Leukemia in First Remission	
Haematol. Bluttransf. Vol 26	: 139-142
Santos GW (1985)	
Allogenic Bone Marrow Transplantation for Acute Myeloid Leukemia in First Remission	
Haematol. Bluttransf. Vol 29	: 31-33
Storp R (1989)	
Current Issues and Future Directions in Marrow Transplantatio	
Haematol. Bluttransf. Vol 32	: 37-45
Pinkel D (1992)	
Bone Marrow Transplantation in Children with Acute Leukemia: A 1990 View	
Haematol. Bluttransf. Vol 35	: 3-10
Storp R (1993)	
Chronic myelocytic leukemia: development of condditioning regiments for marrow transplantation	

Leukemia Vol 7, Suppl 2	: 135-137
Spitzer G et al. (1993)	
Impact of Growth Factors and Peripheral Blood Cells on Hematopoitic Recovery after Autologous Bone Marrow Transplantation	
In: Zander AR, Barlogi B (eds) Autologous Bone Marrow Transplantation for Hodgkin`s Disease, Non-Hodgkin`s Lymphoma and Multiple Myeloma, Springer-Verlag, Berlin Heidelberg New York London, pp 146-149	
B. Barlogie B Jagannath S (1993)	
Autologous Transplantation in Multiple Myeloma	
In: Zander AR, Barlogi B (eds) Autologous Bone Marrow Transplantation for Hodgkin`s Disease, Non-Hodgkin`s Lymphoma and Multiple Myeloma, Springer-Verlag, Berlin Heidelberg New York London, pp165-169	
Brugger W et al. (1993)	
GM-CSF and IL-3+GM-CSF Induced Recruitment of Peripheral Blood Progenitor Cells Following VIP Standart-Dose Chemotherapy	
In: Zander AR, Barlogi B (eds) Autologous Bone Marrow Transplantation for Hodgkin`s Disease, Non-Hodgkin`s Lymphoma and Multiple Myeloma, Springer-Verlag, Berlin Heidelberg New York London, pp 175-180	
Afanasiev BV et al. (1996)	
First Experience in the Field of Bone Marrow Transplantation At the St. Petersburg BMT Center	
In: Zander AR et al. Gene Technology, Stem Cell and Leukemia Research, Nato Asi Series H: Cell Biology, Vol 94, Springer-Verlag, Berlin Heidelberg New York London, pp 505-511	
Zander AR et al. (1996)	
Mobilisation of Progenitor Cells for Autologous and Allogenic Transplantation	
In: : Zander AR et al. Gene Technology, Stem Cell and Leukemia Research, Nato Asi Series H: Cell Biology, Vol 94, Springer-Verlag, Berlin Heidelberg New York London, pp 531-536	
Treatment Strategies:	
Medicine in Less Affluent Societies :	

Fleming AF (1993)	
Leukemias in Africa	
Leukemia, Vol. 7, Suppl 2	: S138-S141
Brandalise S et al. (1993)	
Treatment results of three consecutive Brazilian cooperative childhood All protocols: GBTLI-80, GBTLI-82 and -85	
Leukemia, Vol 7, Suppl 2	: S142-S145
